### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

In view of applicant's amendment submitted on 3/22/2004 and updated search the present claims are passed to issue.

The prior art of record does not disclose process of the present invention, where the amount of the exchangeable cations introduced into the layered clay is determined by titration. According to the claims of the present invention such titration results in clay intercalate having minimal amount of extractable cations.

The closest document found during updated search is that of BRAGODIA (US 6,586,500). The teaching disclose clay nanocomposites having improved level of extractable material, however in this document only discloses use of the clay component, which has lower amount of extractable cations without disclosing the method by which such clay has been obtained.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
